REPORT TO CONTRIBUTORS

FISCAL YEAR 2004–2005

CAMPAIGN UW FUNDRAISING REPORT BY ERIC M. STUVE

Thanks to all of our supporters for making our 2004 Centennial year one of the best ever! In fiscal year 2004–2005, alumni and friends pledged \$850,000. As you can read in the current *Catalyst*, the new Charles W. H. Matthaei Professorship in Chemical Engineering will help Professor François Baneyx in his research in biochemical engineering. Pledged endowments will bring about the Weyerhaeuser Professorship and two graduate fellowships endowed by Pat Miller and Janice and Jeet Bindra.

Endowments are investments in our people and our future, and we are grateful to our strong supporters. Pledges creating endowments can be paid over time and are a great way to focus your giving and provide maximum benefit to the department.

Annual support also gives added impetus to many Chemical Engineering programs. A big milestone is that the median gift rose this year to \$145, the first time it has exceeded \$100. Thanks to those of you who increased your annual giving this past year. All contributions count toward Chemical Engineering's share of the Campaign UW initiative. Keep up the good support!

Throughout the year, I try to arrange for alumni visits in conjunction with my travel. I enjoy these visits as I always learn something interesting. If you get a call from one of us here, please consider setting aside an hour or two so we can chat. It will be an enjoyable time for both of us. Again, many thanks for your continued support. It is vital to our future and we would not be where we are without you.
