

Sign up for BIOEN 599T fall quarter 2006

Lab-to-Market

Entrepreneurship for students with engineering, science, or medical backgrounds

Learn from those who have done it before

- Engineers, scientists, and physicians from well-known companies (**Amgen, Bell Labs, Boeing, Boston Scientific, FDA, GE, HP, Intel, Medtronic, Microsoft, Northrop, Philips, Siemens Medical**)
- Technology business executives
- Local venture capitalists
- UW faculty

Jump-start your career

- Learn how to move ideas from lab to market
- Discover the role of the entrepreneur in start-ups and corporations
- Understand how to analyze markets
- Practice designing business plans, financial statements, and forecasts
- Network with successful entrepreneurs
- Pitch your ideas to investment professionals
- Engage with industry leaders who have lived the dream
- Learn from those who helped create billions of dollars in shareholder value
- Prepare yourself for the global economy

What people say

- “An outstanding variety of quality lectures”
- “A great way to learn from the experiences of other people”
- “Taught me things I never would have learned anywhere else”
- “I wish I had taken this kind of course when I was in school; it would have saved me millions of dollars’ worth of mistakes”

The scoop on BIOEN 599T

- This is the first course in the Program on Technology Commercialization
- PTC is a 3-course series followed by paid summer fellowships for selected students.
- For further information and course descriptions contact Mr. Scot Land, Executive Director of PTC, at scotl@u.washington.edu.
